Education Equity in 2022

50th Anniversary of Title IX

June 23, 2022, will mark the 50th anniversary of passage of Title IX of the Education Amendments of 1972. Arguably one of the most significant pieces of civil rights legislation in America’s history, Title IX prohibits discrimination on the basis of sex in all programs or activities in all federally funded educational institutions including high schools and middle schools.

Career and Technical Education (CTE) in Arizona

CTE provides secondary and postsecondary students with academic and technical skills and knowledge to prepare for the current and future workforce. To realize our business, economic, and human potential, we must close equity gaps by gender, race and ethnicity, and special population status in high-skill, high-wage, programs of study.

Workforce Innovation and Opportunity Act (WIOA)

The Workforce Investment Act (P.L. 105-220) was enacted in 1998 and was last reauthorized by the Workforce Innovation and Opportunity Act (WIOA) (P.L. 113-128) in 2014. WIOA is the primary federal legislation governing federal workforce development programs. It is designed to help job seekers access employment, education, training, and support services to succeed in the labor market and to match employers with the skilled workers they need to compete in the global economy.

Education and Workforce Development Connections⁴

Arizona	Does the charge of the state workforce board or council that connects education to workforce development go beyond the requirements of WIOA?	Does the state publicly identify and publish high-demand occupations and required credentials for the occupations/jobs?	Does the state provide workforce development funding through...			
			The department of labor and/or economic development?	The state education agency?	The state higher education office?	The community and/or technical college system?
	No	Yes	Yes	Yes	Yes	Yes

Middle Skill Jobs⁵

Many in-demand jobs that offer family-sustaining wages in the United States require skills training beyond a high school, but not a 4-year degree. But too few of America's workers have had access to the skills training necessary to fill these jobs.

Arizona's Jobs by Education Requirement, 2018

51% of jobs require skills training beyond secondary school, but not a degree from a four-year institution.

Arizona's Jobs and Workers by Education Level, 2018

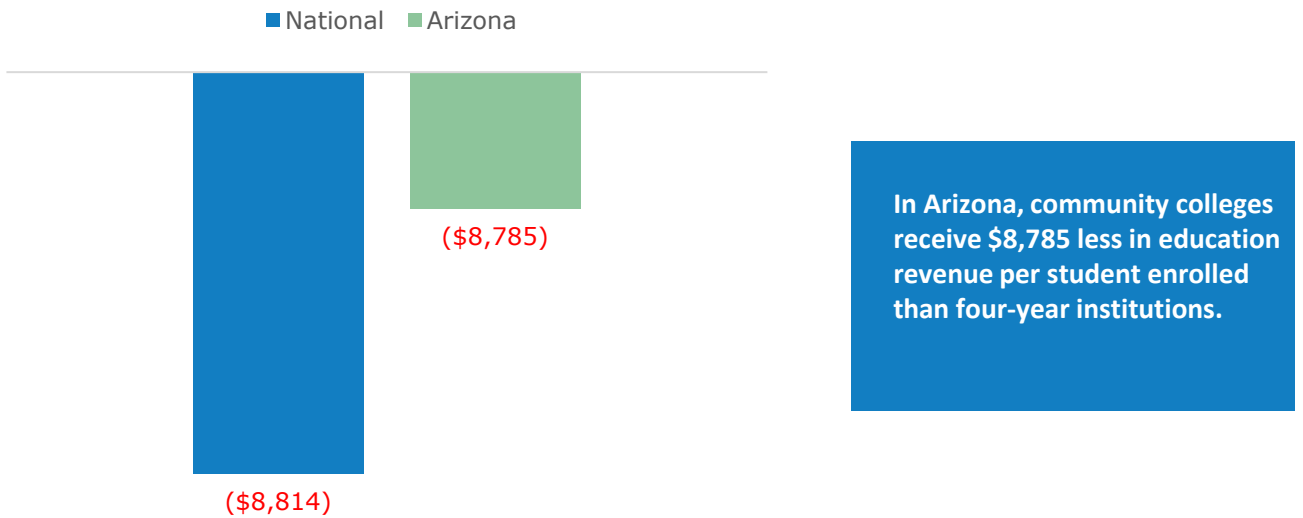

Community College Funding Gap

Community colleges offer a vital and affordable career pathway and vocational training, an entry point to a 4-year degree, and an opportunity for High school students to earn college credits through dual enrollment. Because these colleges disproportionately serve low-income students and students of color, they support social mobility and the health of the U.S. economy. Yet, they receive \$8,800 less in education revenue per student enrolled than 4-year institutions.⁶

REVENUE GAP, state vs national⁷

Revenue gap between four-year institutions and two-year institutions per full-time enrolled student, by state (in thousands USD)

Dual Enrollment Pathways⁸

Dual enrollment allows students to try out different career paths, which increases engagement and success. Dual enrollment students, particularly low-income and male students, are more likely to earn a high school diploma, enroll in a bachelor's program, and enroll in college full time. Yet, research shows that student outcomes vary substantially by state and often by income.

Percentage of High-School Dual-Enrollment Students Who Completed Any Award

	First attended a community college		First attended a 4-year college	
	Arizona	United States	Arizona	United States
Lower income	38%	43%	54%	58%
Higher Income	48%	50%	66%	71%

State Actions on Coronavirus Relief Funds⁹

Coronavirus Relief Funds have infused governments with financial resources to respond and recover from the pandemic and avoid deep budget cuts and depleted reserves. Below is how Arizona plans to spend its funds to support education.

- **\$2 million for the Arizona Virtual Teacher Institute, a partnership among Arizona State University, the Arizona Department of Education, and the non-profit Helios Education Foundation**
- **\$8 million to the universities for testing surveillance, and other response efforts**
- **\$370 million to support K-12 School Districts and Charters as they head back to school (Education Stabilization Program)**

The ESSER Fund of \$122 billion supports efforts to safely and equitably reopen K-12 schools and expand opportunity for students who need it most. These funds were made available to state educational agencies (SEAs) for distribution.
