Career and Technical Education

Secondary CTE is delivered through comprehensive high schools and area career centers, which provide supplemental career training to students within a district. Postsecondary CTE is delivered through community and junior colleges.\(^1\)

In FY 2015, 19% of secondary and 57% of postsecondary students enrolled in CTE were economically disadvantaged.\(^2\)

Career Clusters

Seven of the 16 career clusters in CTE lead to high-skill, high-wage, and high-demand STEM-related careers. These clusters include Agriculture, Architecture, Health, Information Technology, Manufacturing, STEM, and Transportation, Distribution, and Logistics and contain programs that prepare students for nontraditional careers.

Middle-Skill and STEM Jobs
The pipeline to middle-skill and STEM jobs loses young people at every level of the education system. Thus, the supply of sufficiently trained workers will not meet the demand of key industries.

Fast Facts
From 2014 to 2024…
• Computing jobs will grow by 21%. 4
• Engineering jobs will grow by 15%. 4
• Advanced manufacturing jobs will grow by 22%. 4
• Of all job openings, 57% will require training at the middle-skill level. 5

Yet…
• 24% of students who enter an associate’s degree program graduate. 4
• 49% of students who enter a bachelor’s degree program graduate. 4
• 50% of workers are trained to the middle-skill level. 5

2016 AP Test Taking and Passing 6
Students pursuing careers in STEM, particularly computer science and engineering, must become academically prepared early in their educational trajectory. 7

For Mississippi, in 2016, college-bound female students earned an average math SAT score of 565, compared to 608 for male students. 8
