

Coronavirus - CDC reopening guidelines

A highlight of the recently released CDC reopening guidelines for: schools, childcare, workplaces, transportation services, and restaurants

May 15, 2020

Edited by Michael Tinsley

CDC reopening guidance for schools

Schools are guided to meet **all** requirements in each stage before advancing

Should you consider reopening?

- Is reopening consistent with state and local orders?
- Are there protections for higher-risk students?
- Are schools able to screen students and employees upon arrival for symptoms and exposure history?

Any NO

DO NOT OPEN

Are recommended health and safety actions in place?

- Promote healthy hygiene practices such as hand washing and employees wearing a cloth face covering, as feasible
- Intensify cleaning, disinfection, and ventilation
- Encourage social distancing and spacing, small groups and limited mixing between groups, as feasible
- Train employees on health and safety protocols

Any **NO**

MEET SAFEGUARDS FIRST

Is ongoing monitoring in place?

- Develop and implement procedures to check for signs and symptoms of students and employees upon arrival, as feasible
- Encourage people who are sick to stay home
- Develop plans for if a student or employee gets sick
- Communicate and monitor developments with families, employees, and local authorities
- Monitor absences and have flexible leave policies
- Be prepared to consult with local health authorities should there be a case in the facility or an increase in cases in the surrounding area

Any **NO**

CDC reopening guidelines for childcare programs

Childcare programs are guided to meet all requirements in each stage before advancing

Should you consider reopening?

- Is reopening consistent with state and local orders?
- Are there protections for higher-risk students?
- Are programs able to screen kids and employees upon arrival for symptoms and exposure history?

Any NO

DO NOT OPEN

Are recommended health and safety actions in place?

- Promote **healthy hygiene** practices such as hand washing and employees wearing a cloth face covering, as feasible
- Intensify cleaning, disinfection, and ventilation
- Encourage social distancing through spacing, small groups and limited mixing between groups. For family child care, monitor distance between kids not playing together and maintain distance during naps
- Limit sharing of toys, belongings, and equipment
- Train employees on health and safety protocols

Any **NO**

MEET SAFEGUARDS FIRST

Is ongoing monitoring in place?

- Check for signs and symptoms of kids and employees upon arrival, as feasible
- Implement enhanced screening for those who have recently been present in high transmission areas
- Encourage people who are sick to stay home
- Develop plans for if a student or employee gets sick
- Communicate and monitor developments with families, employees, and local authorities
- Monitor absences and have flexible leave policies
- Be prepared to consult with local health authorities should there be a case in the facility or an increase in cases in the surrounding area
